

Quantum Entanglement Mechanics (QEM)

Collected Works (2025 Edition)

Author: Youfu Wang (■■■■)

Independent Researcher, China

ORCID: 0009-0005-5998-6024

This collected edition includes the following QEM series papers published on Zenodo:

- QEM-4: Topological Domain-Wall and Stationary Interference Texture in Multi-Body Entanglement
DOI: 10.5281/zenodo.17520261
- QEM-5: The Upper Propagation Limit in Quantum Entanglement Medium
DOI: 10.5281/zenodo.17536955
- QEM-6: The Lower Propagation Threshold and Quantum Decoherence Barrier
DOI: 10.5281/zenodo.17540002
- QEM-7: Entanglement Flow and Symmetry Breaking Across Quantum Layers
DOI: 10.5281/zenodo.17543014
- QEM-8: Unified Coupling Equation and Symmetric Collapse in Quantum Entanglement System
DOI: 10.5281/zenodo.17547681
- QEM-9: Dynamic Equilibrium and Non-Local Feedback in Quantum Entanglement Network
DOI: 10.5281/zenodo.17552506
